INSTRUMENT CARE

Sterion® | SafeClean™ | Oxboro™ | ColorTrack™

Instrument Tip Protectors

Instrument Tip Protectors are designed to protect valuable instruments from breaking and chipping during sterilization and handling, help eliminate reprocessing costs caused by torn pouches or wrap, and protect staff from sharp sticks during handling.

Osteotome Tip Protectors

Save Osteotome instrument edges from chipping with these tip protectors. Available tinted or clear and vented or non-vented to comply with user preferences. All types allow visual instrument inspection and are gas and steam permeable. Latex-free and single-use.

InnerVent™ Instrument Tip Protectors

InnerVent™ Instrument Tip Protectors offer the performance of vented tip protectors with the safety of non-vented tip protectors. The raised inner nubs allow improved flow through of steam and gas while preventing the tip protectors from "vacuuming" onto the instrument during drying. Latex-free and single-use.

Instrument Identification Tape

Tape makes organizing and tracking valuable instruments easy! Tape is flexible, adheres securely to instruments, and will not chip, flake, peel, or crack — and with 75+ colors, symbols, and character options, the color-coding options are nearly endless. If a change is needed, simply remove the ColorTrack I.D. Tape and replace with your new color choice. Latex-free.

Sheet Tape

Each 8½" x 11" sheet has 374 total inches of tape and contains:
• 44 each of 2 inch strips
• 44 each of 1½ inch strips
• 220 each of 1 inch strips

Corner Protectors

Protect your instrument trays from rips, holes, and tears in sterilization wrap due to sharp tray corners, improper handling, or heavy surgical trays. Aspen Surgical's Corner Protectors are designed to create a flexible barrier between the tray's sharp corners and the sterilization wrap. They can be used with steam, gas, ozone, and low temperature plasma sterilization and are reusable. Latex-free.

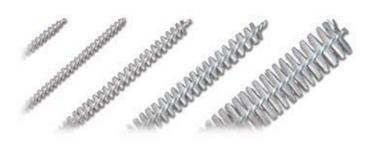

Part No.	Description	Quantity Per Bag
CP-80NS	Corner Protectors	80

SafeClean™ Instrument and Channel Cleaning Brushes are designed to clean surgical/medical instruments and endoscopic devices. The complete line of SafeClean™ Cleaning Brushes are strong enough to effectively remove surgical residue, yet gentle enough to use on the most delicate instruments and devices. Latex-free.

General Purpose Brushes

General Purpose Brushes can be used throughout all of your instrument and device reprocessing areas to clean uniquely shaped and larger bore surgical, medical, and endoscopic instruments and devices. Latex-free.

Disposable Scope Channel Cleaning Brushes

Aspen Surgical's new Disposable Scope Channel Cleaning Brushes have brush heads that range from to 2.5mm – 5mm and will fit scopes as small as 1.1mm. Our disposable scope channel cleaning brushes feature more than double the bristle length than competing low-cost brushes. They have a strong, sturdy handle making it easy to pull through the scope, while still cleaning the scope effectively. Single-use and latex-free.
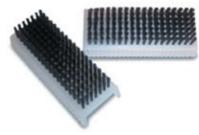

Disposable Scope Channel Brushes
